Voting Action Calendar

[Climate Justice and Resilience Leadership Certificate - Change Concentration/Emphasis Requirements - 22-1845](#). Addition of the newly proposed ENST 420 to the Sustainability minor as an elective in the "Systems Change" list of courses.

[ENST - 420 - 21-1618](#). "Energy Justice". This new 4-unit C-05 course is proposed as a standalone course having been previously offered as a special topics 480 course. This course will become an elective for the Environmental Studies, B.A., the Climate Justice & Resilience Leadership certificate, and the Sustainability minor.

Course description: "Advanced seminar course drawing on the critical social sciences and humanities to understand how energy issues are central to understanding the environmental and social inequalities of our times."

[Environmental Studies, B.A. - Change Core Requirements - 21-1625](#)

- Add NAS 312: Grant Writing for Social and Environmental Justice as an option with COMM 416 to the Community Organizing Emphasis area (to read in catalog: COMM 416 OR NAS 312).
- Add PHIL 309B as an option to the Earth Sciences bucket in the ENST BA curriculum.
- Add PSCI 381S: Community Leadership in Action to the same list of options as #3 (to read: ENST 482 OR ENST 381 OR PSCI 381S).
- Add the newly proposed ENST 420 to Social Sciences bucket of options.

[Sustainability Minor - Change Concentration/Emphasis Requirements - 22-1844](#). Addition of the newly proposed ENST 420 to the Sustainability minor as an elective in the "Socio-economic Institutions, Policy and Equity" category.

Engineering Packet (Undergraduate)

[Environmental Resources Engineering, B.S. - Change Core Requirements - 22-1838](#). Drop Engr 211: Dynamics as a required course. Add Phyx 109 as a required course. Reduce Engr 351 Water Quality from 4 units to 3 unit to keep total major units at 120.

[ENGR - 115 - 22-1733 - Course Change - Introduction to Engineering](#). Course title and description edits. Additional labs that include mechanical systems engineering.

[ENGR - 225 - 22-1776 - Course Change - Computational Methods for Engineering I](#). Change to course title and course description. No significant change to course content.

[ENGR - 313 - 22-1780 - Course Change - Systems Analysis](#). Change to course description only to remove reference to environmental engineering only.

[ENGR - 322 - 22-1779 - Course Change - Risk and Data Analysis for Engineers](#). Change to course title and description to remove references to ERE and replace with engineering.

[ENGR 325 - 22-1777 - Course Change - Computational Methods for Engineering II](#). Change of course title and description to include all engineering majors and not just ERE majors. Change course number to reflect second year course.

[ENGR - 331 - 22-1756 - Course Change - Thermodynamics and Energy Systems I](#). Change of prerequisites to support changes to the engineering curriculum. Specifically, ENGR 211 is no longer required for any major (replaced by PHYX 109), and mechanical engineering is planning to not require CHEM 110, the course relies on this only very minorly, and can easily be included when the content is needed in the course.

[ENGR - 351 - 22-1781 - Course Change - Introduction to Water Quality](#). Unit reduction from 4 and 3 units and removal of environmental risk assessment content. This class needs to be reduced by 1 unit to keep the ERE major to 120 units. The environmental risk assessment content will be covered in another course.

[ENGR - 492W - 22-1732 - Course Change - Capstone Design Project](#). GWAR Certification for Environmental Resources Engineering and Energy Systems Engineering B.S. programs. Minor change to the description to change ERE to engineering to include all of the engineering programs.

[Liberal Studies, Child Development, Special Education ITEP Concentration, B.A. - Change Concentration/Emphasis Requirements - 22-1891](#).

The changes that are requested are based on the SPED credential program changes (Mild to Moderate) due to the new CTC requirements to align the courses with the TPE standards. Please note that NOT all courses in SPED credential program (Mild to Moderate) are listed as part of LSCD SPED ITEP. It was determined in the first round of this proposal that some of the Child Development courses fulfill the content of two SPED credential courses (SPED 705: Multicultural Special Education and SPED 777: Education of Exceptional Individuals) are met through Child Development concentration courses. The 36 units of SPED Credential course for the LSCD SPED ITEP Program are as follows:

- [SPED 702 - Foundations of General and Special Education](#) **Units: 3**
- [SPED 703 - Foundations of Assessment and Program Planning](#) **Units: 3**
- [SPED 706 - Social and Emotional Supports](#): **Units 3** (Course Title under review for Spec Ed Credential)
- [SPED 707 - Curriculum and Instruction - Reading and Language Arts](#) **Units: 3**
- [SPED 708 - Practicum - Reading and Language Arts](#) **Units: 1**
- [SPED 709 - Curriculum and Instruction - Math](#) **Units: 2**
- [SPED 710 - Practicum: Math Instruction](#) **Units: 1**
- [SPED 711 - Curriculum and Instruction - Science, History and Social Science](#) **Units: 2**
- [SPED 721 - Transition Planning](#) **Units: 3**
- [SPED 733 - Special Education Policies and Procedures](#) **Units: 3** (Unit change under review for Special Ed credential program)
- [SPED 738 - Fall Special Education Student Teaching](#) **Units: 5-9** (5 units are required)
- [SPED 739 - Spring Special Education Student Teaching](#) **Units: 5-9** (5 units are required)
- [SPED 749: Teacher Performance Assessment Support 1](#), **Units: 1** (New Course addition under review for Special Ed Credential Program)
- [SPED 750: Teacher Performance Assessment Support 2](#), **Units: 1** (New Course addition under review for Special Ed Credential Program)

There are also three Child Development course change proposals to remove hidden prerequisites for the ITEP program.

- [CD 310](#) - Course change to remove CD 251 as a prerequisite.
- [CD 362](#) - Course change to remove CD 352 as a prerequisite.
- [CD 366](#) - Course change to remove CD 352 as a prerequisite.

* The two units SPED 722 have been dropped due to a change in the Special Education credential change.

** Since the Integrated programs have a limit of altogether 135 units, the program will need approval from the Chancellor's Office to make it an integrated program of 136 units (63 Units of LS Core+37 Units of Child Development Concentration+36 Units of Special Ed Credential). The program is set to start in fall of 2023.
