

Minutes from ICC Meeting Tuesday, December 7, 2010

1. Approval of minutes from November 16

2. CDC

Environment & Community (revisit)

Mark Baker recapped history as well as issues raised in 11/16 meeting.

No COPS involvement yet, but Nancy Hurlburt was consulted.

3-5 years might be better time frame than 10 years

Plans will be sent to the depts. involved for feedback/input.

*Approved (if no objections raised by Friday, Dec. 10)

Next stop will be Senate consent calendar

Geography Major Program Change (revisit)

More discussion about C classification

1 additional WTU required with shift from lecture to lab (331M to 311L)

Issues raised:

How should the ICC address increases in WTU's? (and all resource issues); Suggestion that these issues should be "blessed" by the Deans prior to ICC decision

What is the correct way to determine C classification, especially for labs? Attempts have made to discuss this at college level, but nothing definitive has emerged; Suggestion that content should guide description and/or classification rather than departments. Should this be formalized, with a "form" to check off? Suggestion that language be included on form such as "Please demonstrate that the conversation has taken place between the Dept. and the Dean regarding resources..."

Scott P. to ask Ken A. about increase in WTU.*

Cindy will need to know by 12 noon today

*Approved if above takes place

Chemistry Program (and Courses) Changes (revisit)

Question about the repeatability of Physical Chemistry (This can be addressed later.)

Forms needed (by 12 noon today!) to suspend Physical Chemistry courses

*Approved if forms are completed on time

Geography GEOG 674 Graduate Seminar-reactivation

Why not to 685 to be consistent with other Special Topics courses?

*Rejected

Physical Geography Lab - Course Numbering Change

Need to change C Classification to C-13

*Approved if this is done

Spanish Program Change

Spanish is "absorbing" Spanish Ed. option into "Spanish."

Need to clean up description for Senate

Need to submit suspension forms for Spanish Ed. classes

*Approved if these things are done

Wildlife Program Change - Wildlife Conservation and Management Option

*Approved

Wildlife Program Change-Conservation Biology/Applied Vertebrate Ecology

The addition of BIOL 340 to list of courses that fulfill Genetics requirement formalizes what is already happening.

*Approved

Forestry - Silviculture Course Change

*Approved

Biology Supplemental Courses (in place of Special Topics)

*Approved

Biology-New Course Proposal BIOL 102-Human Biology and 102L-Human Biology Lab

Suggest moving location of outcomes in syllabus

John supplied history, and noted that this configuration maintains flexibility

*Approved

Geology Program Changes (remainder of details following large curriculum change in 2009-10)

"Math code" no longer used; all forms will need to be changed and catalog updated. Grace will do this.

*Approved

Anthropology- Multiple Changes (Course Deletion; Title Changes, Mode Change, & New Course Proposal)

Request changing catalog to reflect actual practices

Need deletion form for Anth 280. Is actually a Program Change since it is cross-listed w/ Math

Discussion about capability of database to search for Co-& Pre-requisites and Equivalencies (Grace)

*Approved

NRPI - Pre-requisite Change

*Approved

History - Program Change (to increase units in core)

*Approved

Music - Program Change (to Composition Option)

Re-distribution of units for private vs. group instruction increase flexibility

Need to clean up catalog description

*Approved

3. AMP

Environmental Systems - Grad Changes (to both Core and Options)

Needed to report back, since it was a category III/IV program after Prioritization

Needed to clean up core; These changes are supported by Dean's office

Engineering- Reactivate Course

Typically offered through Extended Ed. and used for credentialing, licensure, etc.

English - Program Change

Approved by California Commission on Teacher Credentialing (CTC)

Needs to be included in catalog

Will be effective immediately!

Geology - Response Letter from AMP

No comments from ICC

Will be sent to Geology

4. PPA

MOU's

Will be completed by Deans; no need for PPA committee to create more responses at this time

Proposal to Eliminate Unique SLOs for CWT Courses - approved as presented
